POINT BEACH NUCLEAR PLANT END-OF-CYCLE PERFORMANCE
ASSESSMENT FOR 2010

On May 25, 2011, the U.S. Nuclear Regulatory Commission (NRC) held a public meeting at the Two Creeks Town Hall in Two Creeks, Wisconsin. The meeting was between NRC Region III management and NextEra Energy Point Beach, LLC representatives to discuss the NRC's 2010 End-of-Cycle Assessment of the Point Beach Nuclear Plant's safety performance. The results of that assessment were discussed in a letter to the licensee dated March 4, 2011, (ADAMS ML110620512).

The NRC began the meeting with an overview of the NRC, the NRC's Reactor Oversight Process (ROP), national ROP results, and the Action Matrix. A list of principal meeting attendees can be found in the attached enclosure.

Following the NRC's presentation, Mr. Larry Meyer--the Point Beach site vice president--and members of his staff provided the licensee's perspective on the assessment and discussed some of the completed and ongoing efforts at the plant to improve and enhance performance. The licensee's presentation slides can be found in ADAMS at ML111460333.

After the business portion of the meeting, NRC representatives spoke with an individual from local media and a member of the public.
